### My experience as a writer

I have been writing since I was 2 years old. However, I decided to venture into full writing professional in 2000. Since then, I have helped countless number of people to achieve academic and business success by guiding them through certain writing difficulties and also do some of the works (in complete form) for them.

I don't pride myself in the fact that I have achieved a lot as a professional writer, I am more than be-joyed by the fact that I have helped countless number of people in both academic and non-academic writing needs.

Thus, there is no going back for me as I will continue helping when approached for it.
